Tell Us About Yourself

Daryl is a certified cybersecurity professional with expertise in Offensive Security, Incident Response and Enterprise Security Risk Management. His experience has largely been gained through hands-on collaboration with organizations in various industries worldwide. Working across global organizations and industries has provided him with an understanding of the challenges associated with securing enterprise environments, and the expertise to tackle them effectively.

Beyond his experience in offensive security and investigating high-profile cyber incidents, Daryl is particularly passionate about Cyber Threat Intelligence (CTI), Security Architecture, Engineering, and Operations, where he brings both technical proficiency and strategic insight.

Tell Us About The Value You Will Bring To The Chapter

I bring extensive hands-on experience in offensive security, incident response, and enterprise risk management across global industries. My focus will be on creating practical, relevant programming that addresses real-world challenges facing South African security professionals while expanding the chapter's network and reach. I'm passionate about facilitating knowledge exchange between members at all career stages and developing security leaders in Gauteng.
