### Tell Us About Yourself

I'm a qualified accountant and the founder of Umoya Financial Services, a firm that provides accounting, tax, and compliance services to small and medium-sized businesses. I've managed a diverse client base, including schools, companies, and estates.

Alongside my professional work, I hold several degrees — a Bachelor of Accounting, a BSc in Computer Science, an MBA, and an MS in Information Technology. My current focus is integrating technology and data science into accounting processes to improve efficiency and decision-making.

Outside of work, I'm passionate about learning as well as mentoring.

### Tell Us About The Value You Will Bring To The Chapter

I want to offer my experience as accountant on issues of governance, risk management and compliance. I believe in mentorship and continuous learning and hope to help strengthen the Chapter's community through technical insight and a professional commitment to ethical practice.
